

# Mixit - Body shop hardware requirements

## General Mixit information

### Color Manager

AkzoNobel CR Color Manager is the new formula retrieval software for color matching. It supports our customers in their color searching and paint mixing processes. The second release must be distributed on media carrier (ie. DVD or memory sticks) for all upgrades or new installs that require Automatchic. Upgrades that do not involve Automatchic may be done via synchronization. Customers without an internet connection will get updates of the data and software via a media carrier.

### Color Manager Functionality

- Mixing Paint/ Ratios
- Formula Retrieval
- Enhanced Searching
- Stock Management / Mix activity
- Language / Personalization / Reports
- Basic functionality is available for ECOmix
- Import Mixit 2 Own Colors
- Export/ Import Mixit Pro Own Colors
- Automatchic

## Technical information

### Color Manager Hardware & Software Requirements

<sup>2</sup> Passmark: see [www.cpubenchmark.net](http://www.cpubenchmark.net)

### Color Manager Versions Affected

Color Manager release R1.2.0.43 (or higher) ✓

### Hardware compatible with Color Manager

#### Scales

Sartorius PMA series	✓
Mettler scales	✓
Sartorius X1493	✗
Mixit Mini	✗
Sartorius CM 8200	✗
Sartorius CarMix	✗

#### Terminals

Sartorius EcoMix ✓

#### Stand alone systems

Mixit Micro	✗
MixLink	✗
Connex	✗
Lacour	✗

#### Personal Computers (Operating System)

Windows 95	✗
Windows 98	✗
Windows NT	✗
Windows 2000	✗
Windows XP SP2	✓
Windows XP SP3	✓
32-bit Windows Vista *** Business, Ultimate	✓
32-bit Windows 7 *** Business,	✓

### Additional requirements and Akzo Support

### Environments supported for customers

Wireless network (wifi/max, bluetooth, gprs /umts)*	✗
Virtualization of hardware (virtualpc, VMware, etc)*	✗
Simulation of hardware (citrix, steppingstone, etc)*	✗
Wired networks*	✗
Internet access (service provider)*	✗
PC, scale, MixitPro, terminal support**	✓

\* Unless *explicitly* agreed upon with local country support organization

\*\* Subject to agreed upon service contract with local country support organization

\*\*\* Although R1.2 works with Windows Vista & 7 Home editions, ANCR-IM does not recommend using it.
